

RG6 CATV Plenum CMP Coaxial Bulk Cable

RG6 18 AWG CATV plenum CMP coaxial cable is made for digital HDTV, digital satellite, and cable television CATV applications in plenum areas. This cable has a 18 AWG solid copper clad steel conductor with a 75% aluminum wire braiding plus a 100% aluminum foil shielding. It also has a foam FEP dielectric core and coated with a white plenum jacket. This cable is available in 1000ft. lengths on a wooden spool.

Features

- 18 AWG Solid Copper Clad Steel Center Conductor
- Foam FEP Dielectric Core
- 75% AL Wire Braiding + 100% AL Foil Shielding
- Plenum CMP Jacket
- CMP Rated
- ETL Listed
- Made In The USA
- 3 GHz Swept Tested
- EU Directive 2002/95/EC (RoHS)
- Easy To Use Spool
- Cable Is Marked In Descending Order So You Always Know How Much Cable Is Left

Compliance

- NEC Articles: CMP, CATVP, Plenum
- ETL Listed
- RoHS Compliance For The Requirement Of European Union Issued Directive 2002/95/EC

Physical Characteristics

- Conductor Size: 18 AWG
- Conductor Material: Solid Copper Clad Steel
- Dielectric Core Diameter: 0.170 in.
- Dielectric Material: Foam FEP
- Shielding: 75% AL Wire Braiding + 100% AL Foil
- Outer Jacket Material: Plenum CMP
- Outer Jacket Diameter: 0.230 in

Technical Diagram

Available Jacket Colors

○ White Item# CC2-3205WH-6B

Electrical Characteristics

- Nominal Impedance: 75 ohm
- Nominal Velocity Of Propagation: 84%
- Nominal Capacitance: 15.8 Pf/ft
- Nominal Conductor DC Resistance DCR @ 20°C: N/A
- Maximum Operating Voltage-UL: N/A

Mechanical Characteristics

- Operating Temperature Range: -5°C to +75°C
- Maximum Recommended Pulling Tension: N/A

Applications

- Cable Television (CATV)
- Digital HDTV
- Digital Satellite
- Audio / Video

Cable Put-Ups

Cable is supplied in 1000ft. increments on a wooden spool.

Coax Compression Tool, RG11/7/6/59 Standard F Type

This rugged very easy to use tool is designed for RG11, RG6, RG59, RG7 CATV installations. Patented rotating head allows for quick change between RG11/7 and RG59/6 with no adjustments required. Crimp height is fixed for most other brands of compression connectors with similar compression length meeting the industry standard when fully compressed. Tools frame is constructed of high carbon steel with a black oxide rust resistant finish and also includes molded cushioned handles for a strong comfortable grip.

Pro Snap N Seal™ RG6 Universal F-Type Connector for Standard and Quad Shield Green Ring

The ProSNS™ (Snap N Seal) RG6 universal F-type connector uses a patented detachable plastic sleeve guide to assist with insertion of cable conductor. As the conductor is inserted into the back of the connector, the plastic guide is pushed forward and out from the front of the connector. The guide detaches and falls out once the cable is properly inserted, making it easy for the installer to see that the conductor is inserted properly. The internal O-ring at base of the nut facilitates installation. The ProSNS™ technology makes this high quality Universal F-type connector install in a snap.
