Outdoor Weatherproof Surge Suppressor Enclosure

Description

The ENC-ESP-100-POE outdoor weatherproof Ethernet surge suppressor enclosure is designed especially for the TP-ESP-100-POE series of Ethernet Surge Suppressors. It provides an inexpensive and convenient way to locate the surge suppressors on a tower or antenna mast close to the equipment that needs protection. There are two CAT5/6 cable feedthru which clamp down on the cable to provide strain relief and sealing. An external ground connection is provided to facilitate proper grounding. The enclosure is made from UV and impact resistant plastic for long life and worry free operation. The enclosure can be pole or wall mounted.
